All complaint rates are based on 2001 customer populations.

The number of cases received for and assigned to individual utilities are subject to review and could eventally change the numbers reflected in this report. The reduction is the number of complaints is attributed to the method in which complaints are now processed.

Please refer to the July and August 2002 Month Report which describes the Quick Response System and the process by which cases are now handled.

# Informal Hearings, Shared Meter Cases, Appeals and Rehearings October 2002

### **Informal Hearings**

During October an informal hearing officer, as well as staff from other sections met with a representative of Morocco's Center for Renewable Energy Development to discuss our complaint process and consumer education.

As of November 1, 2002 there were 108 cases in the informal hearing unit, including 14 Pre-Hearing Reviews. During October six complaints were resolved with pre-hearing mediation. Six hearings were scheduled and held. Twelve informal hearing cases were closed with written decisions and one case was resolved with a settlement agreement.

Of the 94 informal hearing cases pending, 12 cases were submitted by the same consultant, and concern Niagara Mohawk's method of billing seasonal demand customers. In addition 16 Verizon cases were also submitted by a single consultant and are on the same issue – that of whether refunds for certain acknowledged overcharges should be made under the PSC tariff (to the benefit of the customers) or the FCC tariff.

### **Shared Meter Designee Cases**

Under Section 52 of PSL (Shared Meter Law) only the Commission or its Designee can decide certain complaints. The majority of these cases concern the twelve-month charge assessed to owners for failure to find and correct instances of shared metering. At the end of October there were 238 shared meter complaints pending. Thirty-two (32) new complaints were received in October and fifty-three (53) cases were closed. Brief descriptions of some of the closed cases are outlined below.

The designee reduced the twelve-month charge in 45 cases. In 29 of those cases the charge was reduced to the minimum of 25%; the charge was reduced between 25% - 50% in 5 cases; between 50% - 75% in 5 cases. The twelve-month charge was cancelled in 6 cases due to minimal use or extraordinary cost to correct the condition. The designee ordered apportionment in 3 cases in which the shared use was minimal. In one case the charge was cancelled because the owner paid the bills rendered on the tenant's account and in one case the landlord and tenant resolved the minimal use shared meter problem

### **Appeals and Rehearings**

At its October 23, 2002 session, the Commission approved OCS's recommended determinations of three appeals and three rehearing petitions. One appeal determination upholds a finding that, under the circumstances of the case, a property owner was not responsible for gas service supplied by Brooklyn Union while another business occupied the premises. Another appeal determination concludes that a resident-owner of a two-family dwelling was not entitled to lower residential rates prior to his request to NYSEG for such rates.

The third appeal determination upholds Con Edison's billing of a residential customer for metered electric service. One rehearing determination upholds a Commission appeal determination in favor of a Con Edison gas customer. The other two rehearing determinations uphold decisions by the Commission's designee in shared meter cases involving Con Edison.

Four appeals were accepted for review during October. Two appeals, by commercial Con Edison and Verizon customers respectively, concern past rate classification. In the remaining two new appeals, a residential Con Edison customer questions charges for metered electric service and a nonresidential Niagara Mohawk customer contests the denial of an informal hearing. In addition, two petitions for rehearing of appeal determinations, involving Niagara Mohawk and KeySpan respectively, were accepted.
